Mobile Alabama Distributor Announcement

We are extremely proud to announce that an Alabama Distributor Agreement has been signed between **Unique Polymer Systems LTD (UPS)** and **Process Pump Repair, Inc.** for Alabama, United States of America.

Effective June 2016, **Process Pump Repair, Inc.** has been named as the Distributor of all **Unique Polymer Systems products.**

Process Pump Repair is one of the foremost Rotating Equipment specialists in Alabama and has been providing best practice Pump solutions since 1991. We believe that **Process Pump Repair** has the technical expertise and the sales focus to enhance our footprint in this important market.

Paul and Carolyn Stanley, the founders of the **Process Pump Repair, Inc.** where they recognized the need for honest, quality and reliable service and repairs in the Mobile, Alabama area, are eager to introduce the **UPS Product** line to clients throughout all industrial areas in Alabama.

It is **Process Pump Repair's** goal to support pump professionals in all aspects though parts, rebuilds, complete pumps, rotating assemblies, technical training, and advanced product offerings.

We are excited to have Process Pump Repairs on the UPS team. Contact Process Pump Repairs 251-675-0070/800- 239-6076 or processpmp@bellsouth.net; www.processpumprepair.com

Unique Polymer Systems Ltd is an innovative, technology-driven, customer-focused organization specializing in Mechanical Repair, Surface Improvement, Fluid Flow Protection, Elastomeric Repairs, High Temperature Immersion Protection and the Composite Repair of Pipework. We also have the engineering expertise and resources to solve complex special requirements, and to support a wider range of applications.

UPS Composite products are scientifically engineered to protect your equipment against abrasion, corrosion, erosion, and chemical attack realizing large financial savings in industry specific equipment reliability. With a special focus on the in-situ repair of leaking pipes and other fluid flow equipment.

Reliability is the hallmark of **Process Pump Repair** products and services The **UPS Systems** enhances our growing reputation for reliability performance. Our unique solutions are another step for **Process Pump Repairs** to enhance our customer equipment issues that enhance equipment and process reliability.

We look forward to the opportunity to work with your team to address your reliability issues that you face. Paper and Pulp, Refinery, Marine, Clean/Dirty Water services and general industry are all enhanced in their reliable operation using both Process Pump Repair and **Unique Polymer Systems.**
